E *A*
Wake up, there's a new day dawning
E *A*
I think I'll take a little walk for a while
E *A*
I need shades cause the sun is blinding
E *A*
And I can see for miles and miles
E *A* *E* *A*
Yeah I can feel the earth beneath me, I lie down we are as one
E *A* *E* *A*
They look but they cannot find me, I'm off and heading for the sun
C#m *A* *C#m* *A*
I'm getting colder, I feel a chill in the air
C#m *A*
There's a change in the weather
C#m *G#m* *A* *E*
Here it comes again, now I can feel the rain

The wind that brings on the change is taking me over
D
The wind that brings on the rain is making me older
E *A* *E* *A*
Downtown, the moon is shining, I'm gonna dress it up in style
E *A* *E* *A*
My business everybody's minding, I need to get away for a while
