 In a run down bed and breakfast
Em G Em G
 A room with a view, across the river

 I tried to loos the claustrophobia
Em G Em G
 Opened up and find Ut-opia... u-topia

 There's no more de-nying

 As my mind goes flying
D G Em C G Am
 10 light years away to save my soul
D G Em C G Am
 10 light years away to change it all

 What-ever it may take I gotta try a-gain

 Girl it's time to start over
D G
 10 light years away
 I'd been watching the reflection
 Of a bamboo in the shade, when I saw her
 A very hot day in Havana
 In a midnight blue lagoon
 So try, get excited
 I knew she was hiding
 10 light years away so take me home
 10 light years away to change it all
 Help me find today It's been way too long
 Girl it's time to start over
 10 light years away
 There's no more denying
 As my mind goes flying
 10 light years away to save my soul
 10 light years away to change it all
 Whatever it may take I gotta try again
 Girl it's time to start over
 10 light years away so take me home
 10 light years away to change it all
 Help me find today It's been way too long
 Girl it's time to start over
 10 light years away
