

G
In a run down bed and breakfast
Em G Em G
A room with a view, across the river
G
I tried to loos the claustrophobia
Em G Em G
Opened up and find Ut-opia... u-topia
C D
There's no more de-nying
C D
As my mind goes flying
D G Em C G Am
10 light years away to save my soul
D G Em C G Am
10 light years away to change it all
D G Em C G Am
What-ever it may take I gotta try a-gain
C D
Girl it's time to start over
D G
10 light years away
I'd been watching the reflection
Of a bamboo in the shade, when I saw her
A very hot day in Havana
In a midnight blue lagoon
So try, get excited
I knew she was hiding
10 light years away so take me home
10 light years away to change it all
Help me find today It's been way too long
Girl it's time to start over
10 light years away
There's no more denying
As my mind goes flying
10 light years away to save my soul
10 light years away to change it all
Whatever it may take I gotta try again
Girl it's time to start over
10 light years away so take me home
10 light years away to change it all
Help me find today It's been way too long
Girl it's time to start over
10 light years away
