Should've known how hard it is to stop tearing each other apart
C#m F#m C#m F#m C#m B C#m
Separating souls entwined in all these labyrinthine lies

F#m C#m F#m C#m F#m C#m
I am dead to you, a shadow doomed
C#m B C#m
My love, forever in the dark
F#m C#m F#m C#m
And of ALL UNTRUTHS, the truest is you
F#m C#m B C#m
Too close to my heart

F#m E
To my heart

A B E F#m
This emptiness I've made my home

A B E F#m
Embracing memories of dreams long gone

A B E F#
One last caress from the corpse of love

F#m A B C#m
Is all I want underneath the cyanide sun

C#m F#m C#m F#m C#m B C#m
We've sailed the seas of grief on a raft built with our tears
C#m F#m C#m F#m C#m B C#m
Looking for a way to disappear for a moment from our deepest fears

F#m C#m F#m C#m F#m C#m
I'll be drowning you in this river of gloom
B C#m F#m E
Forever in my heart, OH my love
