

Intro. A C#m C D

A

Early in the morning, by the break of day

is working so his life don't fade away

Dm Em A

He spends his time denying that he's got no time to flying in the breeze

Dm Em A

High above his own, the eagle flies alone and he is free

Early bird is scratching when the load is getting tough

Time is passing by and he just can't get enough

Tell you all is good and well but knows that something's wrong

will wake one day and find his life is gone

Bridge. C#m C D A

You know I like to lay in bed and sleep out in the sun

Reading books and playing crazy music just for fun

You know it makes me feel so fine and sets my mind at ease

You know that I don't harm a soul in doing what I please

Outro. Dm Em A A
