

*Bm*

I get the blues

*D*

I get high

*E*            *G*

I'll explode like dynamite

*Bm*                    *D*

And i'll cry 'till the dust

*A*

Settles down

*Bm*            *D*

I guess i'm hard when i'm soft

*E*                    *G*

And i'm cold when i'm feeling hot

*Bm*            *D*            *A*

Sometimes i guess things just happen too fast

*Em*    *G*

Forget what i said - forget what i did

*D*            *A*

It's not what i meant - so can you forgive

*Em*

Just came out wrong

*F#*

I'm taking it back

*Bm*

Forget what i said

*Bm*            *D*

But i can love you like hell

*E*                    *G*

Put under my black magic spell

*Bm*            *D*    *A*

And i can kiss you like nobody else

*Bm*            *D*

I'll make good of my bads

*E*                    *G*

I'll make nice of all that is sad

*Bm*            *D*            *A*

I'll cut off - the dead hands - of my past

*Em*    *G*

Forget what i said - forget what i did

*D*            *A*

It's not what i meant - so can you forgive

*Em*                    *F#*

It's just came out wrong - i'm taking it back

*Bm*

Please forget about it
