

( F# )Holy lamb  
see the world we started  
is it so I( D#m7 )ow again  
like a light that's lost up( C# )on the stage  
so the more it sh( H )ines, it goes away

( F# )Surely then  
see the curtain rising to show us ( D#m7 )once again  
all the magic of the ( C# )earth and the skies  
see the more we find  
( H )the more we realize

That ( F# )every time  
see the laws of nature keeps telling us  
( D#m7 )like a friend  
it's the spirit of emotion ( C# )dancing to the wind  
high above  
high above  
so ( Hmaj7 )sure inspired again

I can tell a new ( F# )story now  
can we see through this mask of uncertainty  
( D#m7 )surely now  
how can it be so hard when ( C# )all there is to know  
don't be afraid of letting go  
it takes a ( Hmaj7 )loving heart  
to see and show  
this love  
for our own ecology

( F# )Hold the light  
hold the light  
out of ( D#m )love we'll come a long long  
glorious way  
at the ( C# )start of every day  
a child begins to play  
and all we ( Hmaj7 )need to know  
is that the future is a friend of yours  
and mine
