

(Bbm Db F# Fm)

-What's the way of love

Bbm Db

Tell me your fiction

F#

Tell me your lies

Fm

Say to me now, you'll never forget this night

Bbm Db

I'm feeling emotionless

F#

My head's so clear

Fm

My enemies aren't, the ones I fear

Bbm Db

You know your kiss confuses

F#

This troubling soul

And I found out

Fm

The we're all breaking hearts

Ab

That we're all broken hearts

Db F# Bbm

If only love could find us all

Ab Db

If only hearts didn't have to fall

F# Bbm

We can't mislead to make things right

Ab Bbm

So instead we'll sleep alone tonight

(Bbm Db F# Fm)

-What's the way of love?

Bbm Db

You are thinking I'm crazy

F#

But you're blushing of lust

I've heard a lot of nice things,

Fm

But tell me which ones I'm to trust?

Bbm Db

These walls we made are glass

F#

And they have been known to crack

But until then

Fm

You'll keep pushing my way

Ab

And I'll keep pushing your way

D#m F#

If you want to take a change

Bbm

And try to make things right

Db Ab D#m

You better have a reason to be loved

F#

We all want something more

D#m Db

And it is worth fighting for?.

(SOLO)

Db F# Bbm

And somehow fate were in my hands

Ab Db

Would it be enough to understand

F# Bbm

Why we feel lost in a world so small

Ab Db F# Bbm

If only love could find us all?

Ab Db F# Bbm

If only love could find us all?

Ab Bbm

If only, If only love could find us all
