```
                 G#m
It takes a crane to build a crane
                   C#m
It takes two floors to make a story
                 E
It takes an egg to make a hen

It takes a hen to make an egg
             B          F#
There is no end to what I'm saying

              G#m
It takes a thought to make a word
                      C#m
And it takes some words to make an action
                      E
And it takes some work to make it work

It takes some good to make it hurt
               B          F#
It takes some bad for satisfaction

G#m            C#m
Ah la la la la la la life is wonderful
F#             B
Ah la la la la la la life goes full circle
G#m         C#m
Ah la la la la la life is wonderful
Bbm          F#
Ah la la la la la

              G#m
It takes a night to make it done
                  C#m
And it takes a day to make you young brother
                      E
And it takes some old to make you young

It takes some cold to know the sun
                B    F#
It takes the one to have the other

                 G#m
And it takes no time to fall in love
                 C#m
But it takes you years to know what the love is
                   E
And it takes some fears to make you trust

It takes those tears to make it rust
            B               F#
It takes the dust to have it polished

   G#m              C#m

                        B
It takes some silence to make sound
                        C#m
And it takes a lost before you found it
                        E
And it takes a road to go nowhere

It takes a toll to show you care
                   B   F#
It takes a hole to see the mountain
