

*E*      *A*            *E*      *A*  
It started at a bus stop in the middle of nowhere  
*D*                    *E*  
Sitting beside me was a man with no hair  
          *E*                    *A*  
From the look on his face to the size of his toes  
      *D*                    *E*  
He comes from a place that nobody knows

Chorus:

*F#m*            *A*            *D*  
Maybe I'm hallucinating, hyperventilating,  
*D*  
Letting this big- toed bald man sitting here tell me about the sky  
*F#m*            *A*            *D*  
Maybe I'm hallucinating, hyperventilating  
*D*  
If you asked me now then I couldn't tell you why

*E*            *F#m*      *A*            *B*  
I've been sitting here too long by a man from Milwaukee  
          *E*            *F#m*      *A*            *B*  
He's been talking too long on his yellow walkie talkie  
          *E*            *F#m*      *A*            *B*  
He's been talking to Mars, but I think he's wacky  
          *E*            *F#m*      *A*            *B*  
He says they'll come get him, come get him some day

*E* *F#m* *A*

Verse 2:

*E*      *A*            *E*      *A*  
He says that where he's from is called Albertane  
*D*                    *E*  
There they use more than 10% of the brain  
      *E*      *A*            *E*      *A*  
But you couldn't tell it from they way they behave  
      *D*                    *E*  
They run around in underwear and they never shave

(Repeat Chorus)

Bridge:

*Dm*      *F* *G*  
(Spoken Freely)  
This is Mother Bird calling Baby Bird  
Baby Bird come in, come in Baby Bird  
For the love of Pete come in!  
This is Baby Bird...sorry I was watching Court TV  
Do you copy? Do you copy?  
Of course we copy...24 hours a day...in color

Solo:

*E F#m A B E F#m A*

*E A E A*

You wouldn't believe me if I told you the rest

*D E*

The man sitting by me who was barely dressed

*E A E A*

Flew off to Milwaukee or perhaps Albertane

*D E*

And left me at the bus stop just barely sane

*F#m A D*

Maybe I'm hallucinating, hyperventilating

*D*

If you asked me now then I couldn't tell you why

*E F#m A B*

I've been sitting here too long thinkin' about Milwaukee

*E F#m A B*

I've been talking too long on my yellow walkie talkie

*E F#m A B*

I've been talking to Mars, You might think that I'm wacky

*E F#m A B*

I know they'll come get me, come get me someday

I know they'll come get me and take me away

I know they'll come get me, come get me someday

If not tomorrow then maybe today...
