Am No sign of life did flicker Ε In floods of tears she cried Am "All hope's lost it can't be undone They're wasted and gone" Am "Save me your speeches С I know (They blinded us all) G What you want You will take it away from me С Take it and I know for sure The light she once brought in G Am Is gone forevermore" Am С Like sorrowful seaguls they sang "(We're) lost in the deep shades Ε The misty cloud brought (A wailing when beauty was gone Come take a look at the sky) Am С Monstrous it covered the shore Ε Fearful into the unknown" С Αm Quietly it crept in new horror G Ε Insanity reigned С Am It spilled the first blood Ε When the old king was slain chorus: С G Am Ε Quietly crept in and changed us all Quietly crept in and changed us all С G Ε
