

C Am F
We ran through strawberry fields and smelt the summer time
C Am G
When it gets dark I'll hold your body next to mine
C Am F
And then we'll find some wood and hell, we'll build a fire
C Am G
And then we'll find some rope and make a string guitar

C G
Captivated by the way you look tonight
F G F
The light is dancing in your eyes, your sweet eyes

C G
Times like these we'll never forget
Am F
Staying out to watch the sunset
C G F
I'm glad I shared this with you
C G
You set me free
Am F
Showed me how good my life could be
C G F
How did this happen to me?
C
Yeah, oh oh

C Am F
And then I'll swing you girl, until you fall asleep
C Am G
And when you wake up you'll be lying next to me, ba ba
C Am F
We'll go to Hollywood, make you a movie star
C Am G
I want the the world to know how beautiful you are

C G
Captivated by the way you look tonight
F G F
The light is dancing in your eyes, your sweet eyes

C G
Times like these we'll never forget
Am F
Staying out to watch the sunset
C G F
I'm glad I shared this with you
C G
You set me free
Am F
Showed me how good my life could be
C G F

How did this happen to me?
