

*Am*  
Nothing I must do  
*Dm*  
Nowhere I should be  
*E*  
No one in my life  
*C*  
To answer to but me

*Am*  
No more candlelight  
*C*  
No more purple skies  
*Dm*  
No one to be near  
*E Am*  
As my heart slowly dies

*C D*  
If I could hold you one more time  
*G C*  
Like in the days when you were mine  
*F G*  
I'd look at you 'till I was blind  
*E*  
So you would stay

I'd say a prayer each time you'd smile  
Cradle the moments like a child  
I'd stop the world if only I  
Could hold you one more time  
(Hmmmmmm)

I've memorized your face  
I know your touch by heart  
Still lost in your embrace  
I'd dream of where you are  
(Music break)  
(Hmmm)

If I could hold you one more time  
Like in the days when you were mine  
I'd look at you 'till I was blind  
So you would stay

I'd say a prayer each time you'd smile  
Cradle the moments like a child  
I'd stop the world if only I  
Could hold you one more time  
One more time
