

*C#5 C*

stoplight lock the door  
don't look back  
undress in the dark  
and hide from you  
all of you

*C D A*

You'll never know the way your words have haunted me  
I can't believe you'd ask these things of me  
you don't know me

*Em D C*

You belong to me

*Am Em*

my snow white queen

*D C Am*

there's nowhere to run, so lets just get it over

*Em D C*

soon I know you'll see

*Am Em*

you're just like me

*D C Am Em D*

don't scream anymore my love, cause all I want is

*C#5 C*

Wake up in a dream  
frozen fear  
all your hands on me  
I can't scream, I can't scream

*C D A*

I can't escape the twisted way you think of me  
I feel you in my dreams and I don't sleep  
I don't sleep

Refrão

*C Am*

I can't save your life

*D C Am*

though nothing I bleed for is more tormenting

*Em D C Am Em D C Am*

I'm losing my mind and you just stand there and stare as my world divides

Refrão

*Em D*

all I want is you 3x
