I wanna read in your eyes  
that you say yes when you say no

I wanna take a step across this line  
till you can feel my love

*G#m      E      B      F#*  
you open the door and it hits to the core

Ain't got no pearls or diamond rings  
I only got my heartbeat

but it won't be long and i will wait  
and melt inside your heart

you opened the door and it hits to the core

*G#m F# E F#*  
we went too far way too far  
*G#m F# E E*  
there's no turning back this time  
*G#m F# E F#*  
we went too far way too far  
*C#m F# G#m*  
and you're gonna be all mine

we went too far,way too far  
it can never be too far  
we went too far,way too far  
to find nothing but real love
