

*D*                    *G*            *G A D*  
In my rear view mirror the sun is going down  
*D*                    *G G A*  
Sinking behind bridges in the road  
*G*            *A*            *D A G*  
I think of all the good things that we have left undone  
*Em*                    *Bm*  
And I suffer premonitions, confirmed suspicions  
*Em*                    *A D A G G A D D A G G A D*  
Of the holocaust to come

The rusty wire that holds the cork that keeps the anger in  
Gives way and suddenly it's day again  
The sun is in the east even though the day is done  
Two suns in the sunset  
Could be the human race is run

BRIDGE:

*Bm*                                    *A Bm*  
Like the moment when the breaks lock  
*Bm*                                    *A*  
And you slide towards the big truck  
*A G*                    *A D*  
You stretch the frozen moments with your fear  
*Bm*                                    *A Bm*  
And you'll never hear their voices  
*Bm*                                    *A*  
And you'll never see their faces  
*G A D*  
You have no recourse to the law anymore

As the windshield melts and my tears evaporate  
Leaving only charcoal to defend  
Finally I understand the feelings of the few  
Ashes and diamonds, foe and friend  
We were all equal in the end
