Verse:

*Em*            *C*        *G*            *D* (x4)  
I'm no barbie doll, I'm not your baby girl  
I've done ugly things and I have made mistakes  
And I am not as pretty as those girls in magazines  
I am rotten to my core if they're to be believed

*C*                                    *D* (x2)  
So what if I'm no baby bird hanging upon your every word?  
Nothing ever smells of roses that rises out of mud

Chorus:

*Em*                            *C*  
Why do you love me? Why do you love me?  
*G*                            *D*  
Why do you love me? it's driving me crazy (x3)

*Em*            *C*        *G*            *D*  
Why do you love me? Why do you love me?

Verse: *Em*            *C*        *G*            *D* (x4)  
You're not some baby boy, Why you acting so surprised?  
You're sick of all the rules, Well I'm sick of all your lies.  
Now I've held back a wealth of shit, I think I'm gonna choke  
I'm standing in the shadows with the words stuck in my throat

*C*                                    *D*                                    (x2)  
Does it really come as a surprise when I tell you I don't feel good?  
Nothing ever came from nothing man. Oh man, ain't that the truth

Chorus:

*Em*                            *C*  
Why do you love me? Why do you love me?  
*G*                            *D*  
Why do you love me? it's driving me crazy (x3)

*Em*            *C*        *G*            *D*  
Why do you love me? Why do you love me?

*Em*                            *C*            *G*            *D*  
I get back up and I do it again, I get back up and I do it again  
I get back up and I do it again, I get back up and I do it, I do it again

I think you're sleeping with a friend of mine

I have no proof but I think that I'm right  
And you've still got the most beautiful face  
It just makes me sad most of the time

*Em*                    *C*                    *G*                    *D*  
I get back up and I do it again, I get back up and I do it again  
I get back up and I do it again, I get back up and I do it, I do it again

Chorus:

*Em*                    *C*  
Why do you love me? Why do you love me?  
*G*                    *D*  
Why do you love me? it's driving me crazy (x3)

*Em*                    *C*                    *G*                    *D*  
Why do you love me? Why do you love me?
